+38.1%	-18.8%	-5.8%	-1.5%

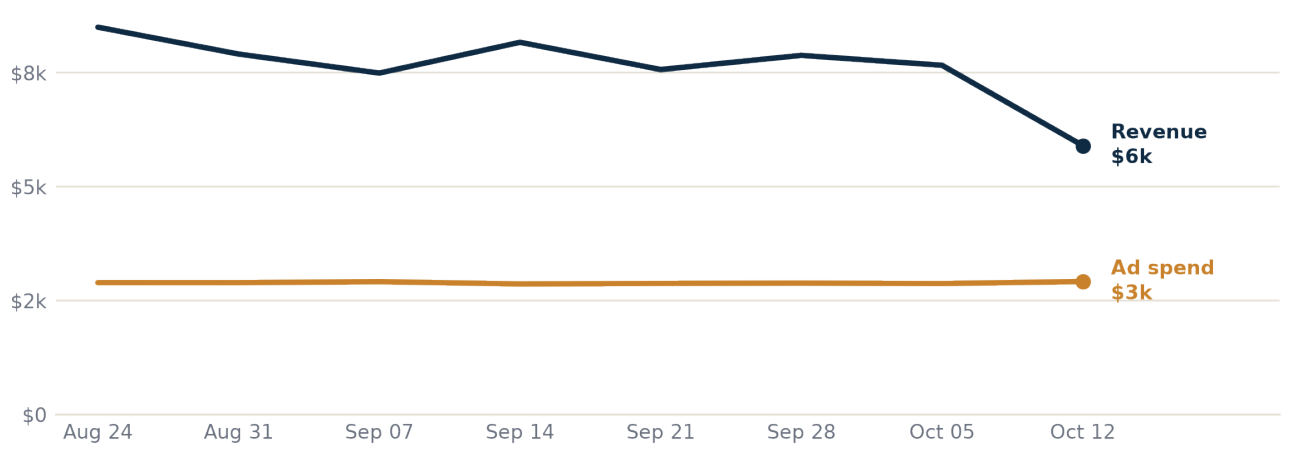

WHY IT HAPPENED

The Prospecting Lookalike campaign saw its click■through rate fall about 40%, raising its cost per conversion and lowering its ROAS. Brand Search and Retargeting Cart Abandoners both had conversion rates drop roughly 44% and 24% respectively, making each conversion more expensive. These declines in click■through and conversion rates are the main drivers of the week’s weaker performance.
